| <p>A needs assessment was conducted analyzing data (SBA, IAB, mark analysis reports, Single Plan for Student Achievement, REED, and resources from the District Management Group). Staff was surveyed during professional development and parent/community members were surveyed using the following platforms: coffee with the principal and Saturday breakfast with the principal meeting/workshops. The needs assessment was needed to maximize our efforts and to align the plan to the foci area (mathematics). The needs assessment aided the school in determining data driven approaches to building capacity, establishing expectations & accountability systems, and in creating systems that will deem sustainable over time. School site leaders across the 12 schools will meet four times throughout the year as a professional learning community to measure the impact of implementation on teaching and learning. Many of the class sizes in core subject areas have 37 – 40 students in the class. Using Innovation and Title I funds, class sizes will be reduced to 25 – 35 students. Asst. Principal will assist the principal in providing direct feedback to teachers following observations. Currently administration is able to visit 2 classes per day. The additional administrator will increase this to 4 classes per day. Asst. Principal will also monitor the feedback given to students following the administration of the IABs.

TCHR AUXILIARY – (3) – Three auxiliary classes to offer instruction in Spanish and to lower class sizes in social studies and science.

• Decrease in long-term English learners: 17%
