Dr. Weber's bill, AB 392, moved out of Assembly Public Safety Committee on April 9th with a vote of 6 – 2. The key to the vote was that the bill was not moved to the floor after the successful vote, but was sent to the Rules Committee, where it will sit until the Assembly leadership decides what to do with the bill – sending a clear message to the opposition that Dr. Weber and her sponsors are preparing for negotiation. The Legislature is going on recess this Friday; however, we don't predict that any talks would occur prior to sometime in May.
