<p>A needs assessment was conducted analyzing data (SBA, IAB, mark analysis reports, Single Plan for Student Achievement, REED, and resources from the District Management Group). Staff was surveyed during professional development and parent/community members were surveyed using the following platforms: coffee with the principal and Saturday breakfast with the principal meeting/workshops. The needs assessment was needed to maximize our efforts and to align the plan to the foci area (mathematics). The needs assessment aided the school in determining data driven approaches to building capacity, establishing expectations &amp; accountability systems, and in creating systems that will deem sustainable over time. School site leaders across the 12 schools will meet four times throughout the year as a professional learning community to measure the impact of implementation on teaching and learning.
