Re: Your CPRA Chemical Agent Request to Solano County

Dear Mr. Kysel:

The County of Solano (County) is in receipt of your California Public Records Act (CPRA) request dated May 9, 2018 containing approximately six pages of single-spaced requests for documents regarding the use of force and chemical agents at the Solano Juvenile Detention Facility. Assistant Director of Probation Donna Robinson has designated me to respond to your request.

The County has determined that there are documents responsive to your request. Specifically, the County has documents responsive to requests:

1(a)(i) (sent in response to your previous CPRA request on April 2, 2018), (ii), (iv), (xii), (xiii), (xiv) (sent in response to your previous request on April 2, 2018 as well as additional documents attached), (xv); and 2(a)(vii). Responsive documents not previously sent are attached to this letter.

As the County does not use chemical agents at its juvenile facilities, the County has no responsive documents for your other requests.

At this time, the County believes it has fully complied with your CPRA request.

Sincerely

A handwritten signature in black ink that reads "Davina Smith".

Davina Smith
Deputy County Counsel
