

# SCHOOLS & COMMUNITIES FIRST

The California Schools and Local Communities Funding Act reclaims \$11 billion robbed from our schools and neighborhood services because of the Prop 13 corporate tax loophole. This measure protects homeowners and renters while taxing undervalued commercial land at fair market value, creating a level playing field among businesses and ending the unfair advantage given to big corporations.

Schools and Communities First is a broad statewide coalition of community, faith and labor organizations who have joined together to restore funding to schools and critical services and make our tax system fair.
